KERAMEIKONOVА ZBIRKA SUVREMENE SVJETSKE KERAMIKE

KERAMEIKON's Collection of Contemporary World Ceramics

2002. – 2013.

O KERAMEIKONU, Hrvatskom keramičarskom udruženju i njegovo Zbirci suvremene svjetske keramike

Prije dvanaest godina grupa varaždinskih entuzijasta kojima su se pridružili i drugi umjetnici iz Hrvatske ali i Gustav Weiß, keramičarska legenda iz Njemačke, osnovala je KERAMEIKON, Hrvatsko keramičarsko udruženje. U neprofitnoj organizaciji keramičara, lončara, likovnih stručnjaka, galerista, ljubitelja keramike, institucija, asocijacije i svih drugih zainteresiranih za promociju i unapređenje keramike kao specifične vrste umjetnosti, okupile su se snage koje su sebi postavile vrlo visoke ciljeve a prije svega razvijanje i unapređenje širokog spektra aktivnosti vezanih uz keramiku, poticanje suradnje umjetnika, unutar Hrvatske i na međunarodnom planu, poticanje suradnje umjetnika i galerista, likovnih stručnjaka, ljubitelja i sakupljača keramike, podizanje nivoa komunikacije među svim subjektima zainteresiranim za keramiku, kao i njegovanje iskustava i unapređenje hrvatske lončarske tradicije.

Udruženje svoje ciljeve uspješno ostvaruje organiziranjem tečajeva, seminara, škola, kolonija, radionica i drugih oblika edukacije, s posebnim naglaskom na mlade, organiziranjem domaćih i međunarodnih izložbi, te cijelim nizom drugih aktivnosti.

Članovi Udruženja su mnogi istaknuti keramičari i drugi stručnjaci za keramiku i umjetnost iz Hrvatske i inozemstva. Današnja velika mogućnost brze komunikacije omogućila je Udruženju da se na području keramike poveže sa gotovo cijelom svijetom ali i da keramiku i u fizičkom smislu približi našoj kulturnoj javnosti jednako kao što informaciju o aktivnostima hrvatskih keramičara putem svoje mrežne stranice prinosi svijetom.

Udruženje se posebno dokazalo uspješnom organizacijom već tradicionalnog **Međunarodnog festivala postmoderne keramike** koji će se pod pokroviteljstvom Ministarstva kulture RH i varaždinskog Gradskog poglavarstva 2015. godine održati po peti put. Ovu manifestaciju najviše obilježava izložba **CERAMICA MULTIPLEX** koja uvijek okupi velik broj sudionika iz cijelog svijeta. U ovaj su Festival uključene i raznovrsne aktivnosti namijenjene ne samo keramičarima već i ostaloj publici zainteresiranoj za kreativni doživljaj i propitivanje vlastite kreativnosti.

Redovite godišnje izložbe u prosincu pod naslovom **KERAMEIKON & prijatelji** svake godine okupljaju većinu hrvatskih keramičara oko neke specifične teme. Svi pobliži podaci o djelovanju Udruženja mogu se pogledati na: www.kerameikon.com

Od 2012. godine Udruženje koristi galerijski prostor u Kukuljevićevoj ulici 10, u središtu grada Varaždina. Ovaj prostor nazvan **KERAMEIKONOVA Galerija K10**, koristi se za ciklično izlaganje vrhunskih djela koja čine **KERAMEIKONOVU zbirku suvremene svjetske keramike**. Kroz dvanaest godina svoga djelovanja Udruženje je prikupilo vrlo vrijedne radove (njih 230, do sada) koji su mahom nagrađivani a svi su prošli obaveznu selekciju međunarodnog žirija. Iako je Zbirka prvenstveno bila namijenjena Varaždincima i posjetiteljima njihovog grada, pokazalo se, da je jednako dobro ako Zbirka u jednom svom dijelu kreće na put, u susret publici koja prepozna prave vrijednosti u umjetnosti keramike.

Visoka vrijednost doniranih radova iz cijelog svijeta zavrijedila je jedinstveni katalog jer njih je sve zajedno naprsto nemoguće prikazati u nekom od raspoloživih izložbenih prostora. Ovaj katalog predstavlja nikad završeno djelo jer, Zbirka stalno raste i nadupunjava se.

Radovi prikazani u katalogu pružit će priliku svakom zainteresiranom da upozna najrazličitije autorske pristupe kao i raznovrse tehnike izrade keramike. Svojim izričajem i rukopisom oni govore jasno koliko je keramika uzbudljiva, raznovrsna, vrlo specifična a ponekad i vrlo individualna vrsta umjetnosti u čijoj osnovi ipak leži univerzalnost.

About KERAMEIKON, the Croatian Ceramic Association and Its Collection of Contemporary World Ceramics

Twelve years ago, a group of enthusiasts from Varaždin and other artists from Croatia, as well as Gustav Weiss, the legendary ceramist from Germany, founded KERAMEIKON, the Croatian Ceramic Association. This non-profit organization of ceramic artists, pottery craftsmen, art experts, gallery operators, pottery fans, institutions, associations and others interested in the promotion and development of ceramics as a unique form of art, has brought together very ambitious individuals who have set very lofty goals: to develop and upgrade a wide spectrum of activities related to ceramics, to encourage cooperation among artists both in Croatia and abroad, to encourage cooperation between artists and gallery operators, art experts, pottery fans and collectors, raising the level of communication among all those interested in ceramics, and cultivating experiences and developing a Croatian pottery tradition. The association realizes its goals through courses, seminars, schools, colonies, workshops and other forms of education, with a special emphasis on the young, by organizing local and international exhibitions and many other activities. The association brings together many renowned ceramic artists and other ceramics and art experts from Croatia and abroad. Today's ability to communicate rapidly has enabled the association to connect with the entire world about ceramics, but also to familiarize our cultural public with ceramics in the physical sense and to publicize the activities of Croatian ceramists through its web page. In particular, the association has proven itself with the successful organization of the now-traditional **International Festival of Postmodern Ceramics**, which will be held for the fifth time in 2015 under the auspices of the Croatian Ministry of Culture and the City of Varaždin. The most characteristic part of the program is the exhibition **CERAMICA MULTIPLEX**, which always attracts a large number of participants from all over the world. The festival also includes a variety of activities intended for ceramic artists and for those in the general public who are interested in a creative experience and testing their own creativity.

Every December, regular annual exhibitions under the title **KERAMEIKON & Friends** brings together most Croatian ceramic artists around a specific theme. All details about the activities of the Association may be found at: www.kerameikon.com.

Since 2012, the Association has used the gallery area at Kukuljićeva 10 in the center of the city of Varaždin. This area is called **KERAMEIKON Gallery K10** and is used for periodic exhibitions of the outstanding works that are part of the **KERAMEIKON's Collection of Contemporary World Ceramics**. During the twelve years of its activity, the association has collected some very valuable pieces (230 to date), some of which have regularly received awards and all of which have passed through a mandatory selection by an international jury. Although the collection was primarily intended for the people of Varaždin and visitors to the city, a part of the collection goes on the road to be shown to a public that recognizes the true value and artistry of ceramics.

Because of the great value of these works donated from around the world, they deserve to be in a unique catalogue since it is impossible to show all of them together in the available exhibition rooms. This catalogue represents a never-ending work because the collection keeps growing and expanding. The works presented in the catalogue will provide anyone interested in ceramic art with the opportunity to become acquainted with the most varied creative approaches and the different techniques for making ceramic works. By their expression and handwriting these works clearly show how ceramics can be an exciting, diverse, very unique, and sometimes a very individual type of art that is still based on universal values.
